

Athens, Greece | May 4-6, 2022

9<sup>th</sup> International Conference of Physiotherapy in Psychiatry and Mental Health

## Physiotherapy in Mental Health; what's next

Athens 18/11/2021

Dear President of the Executive Committee of World Physio's subgroup,

On 4-6 May 2022, Athens, Greece will host the **9<sup>th</sup> International Conference of Physiotherapy in Psychiatry and Mental Health**. (<https://www.ioptmh2022.com/>)

Its theme is “**Physiotherapy in mental health? What's next?**”

The conference is organised by the **International Organisation of Physical Therapy in Mental Health (IOPTMH)**, a World Physiotherapy subgroup, in collaboration with the Greek scientific section “**Physiotherapy in Mental Health**” of the **PanHellenic physiotherapist's association**.

It will be conducted in a hybrid manner (physical presence & online monitoring) in full harmonisation with the Greek Ministerial Decisions and the applicable Health Protocols for holding conferences due COVID-19.

Dear Colleagues,

We invite all of you to contribute to the further scientific progress of physiotherapy in mental health. Please share the 9<sup>th</sup> International Conference of Physiotherapy in Psychiatry and Mental Health and express your interest in presenting a scientific work by immediately filling the application form: <https://www.ioptmh2022.com/abstract/> (**deadline by December 15, 2021**).

The language of the presentations is English and it is the first time in the IOPTMH conference proceedings that the organizing committee was able to publish all the papers in a separate book with its own ISBN & DOI, contributing inexpensively to the additional enrichment of participants' CV.

Awaiting your dynamic response, we remain at your disposal for any further clarification

Yours truly, with kind regards

**Stavros Stathopoulos**

Chair of organising committee
